Project Overview

The client: Crystal Martin International
Site location: Nottinghamshire
Timescale: 4 Days inc. weekend

Crystal Martin International provide an effective clothing supply chain of high quality, competitively priced Intimate Apparel, Womenswear, Menswear and Childrenswear.

Mardel were tasked by Crystal Martin to carry out the refurbishment of their reception area at their premises in Sutton in Ashfield. They wanted to create an exciting and minimalist look that fitted with their corporate image.

The old reception counter was taken out and the existing flooring ripped up. After screeding the floor, a new vinyl wood plank effect was laid with carpet tiled seating areas.

The new reception and storage units were then positioned and installed by our trained craftsmen. Lastly the seating was delivered and the wall and reception manifestations were put into place.

Works undertaken:

- New flooring throughout
- Logo manifestations
- Bespoke reception counter
- Bespoke fitted storage units
- Designer reception seating and tables

"Mardel designed and fitted our new reception area, completing the work to a high standard, on time and as quoted. Visitors and employees alike have commented how much they like the contemporary, modern design. Della and her team were a pleasure to work with and I would have no hesitation in recommending them." H&S Manager CMI

Happy new reception team

Sometimes imagination is just not enough - you need to visualise the completed project before committing to purchase. As part of the service Mardel offer, we can render 3D drawings so that you can see exactly what your new project will look like. It is this peace of mind that will put you at ease as Mardel carry out your installation.
